PROFILE

Ambitious sophomore with strong passion for artificial intelligence, machine learning, and computer science, seeking internship and summer program opportunities to apply technical skills in real-world projects. Driven by vision to build impactful educational tools and platforms.

EDUCATION

- **Metea Valley High School, Aurora, Illinois**
- Expected Graduation: May 2028 | Weighted GPA: 3.8 | Unweighted GPA: 3.7
- Relevant Courses: Honors English 2, AP World History | AP Computer Science A (In Progress)

TECHNICAL SKILLS

- Programming: Python, JavaScript | Web Development: HTML, CSS, Website Developmentadd
- Tools & Analytics: Google Analytics 4 (GA4), Cloudflare Pages, Modern Web Technologies
- Soft Skills: Problem-solving, Project Management, Leadership, Collaboration, Communication

PROJECTS & LEADERSHIP

★ Founder & Developer — Choose & Rise | Jan 2026–Present

- Founded and developed a nonprofit educational platform to help high school students explore colleges, majors, and career pathways
- Designed, built, and maintained responsive website using HTML, CSS, and JavaScript; deployed on Cloudflare Pages
- Researched and organized educational resources; implemented GA4 analytics; managed continuous platform improvements

★ Co-Founder — Mental Health Initiative | 2026–Present

- Co-founded student-focused mental health project to support peer wellness and create supportive community
- Collaborated on planning, outreach strategy, and platform development; supported organization growth initiatives

TECHNICAL PROJECTS

CivicReports — Mobile Civic Reporting App

- Built mobile application for reporting local civic issues with real-time submission and tracking features
- Designed user-friendly reporting workflow for community engagement and issue management

Personal Diet Tracker — AI Health Application

- Developed AI-powered food analysis tool using image recognition for meal tracking and nutrition insights
- Implemented photo-based calorie and dietary estimation workflow

Plant Disease Detector — ML AgriTech Project

- Created machine learning model to classify plant leaf diseases from uploaded images
- Improved agricultural diagnosis accessibility through automated disease detection

Vision Guide — Accessibility Assistant

- Built high-contrast scan-to-read accessibility tool for visually impaired users
- Implemented text enhancement and readable interface optimization features

Social Media Automation — AI Automation Pipeline

- Developed automated social media workflow using n8n and NVIDIA Nemotron AI models
- Built AI-powered content automation pipeline for streamlined posting and generation

EXPERIENCE & COMMUNITY SERVICE

ELL Math & Science Tutor | Metea Valley High School | 2025–Present

- Tutored English Language Learner (ELL) students in mathematics and science, improving comprehension and confidence
- Assisted with assignments, homework explanations, and concept clarification; received ELL Tutoring Certification

Community Volunteer | 2025–Present

- Participated in school and community-based volunteer initiatives and service projects
- Completed 8+ hours of community service; committed to ongoing volunteer engagement

High School Researcher — Pulse | 2026–Present

- Conducting AI/ML research as part of the Pulse High School Research Program under mentor guidance.
- Collaborating with a research team to develop and evaluate machine learning models for real-world applications. *(Customize this bullet to your actual work.)*
- Contributing to technical documentation, experiments, and research presentations. *(Only include this if you're actually doing it.)*

ACTIVITIES & CERTIFICATIONS

- Student Government (Freshman) • STEM Talks • Computer Club (Freshman) • Cricket Club
- Reinforcement Learning (Grade A) • Python Programming Expert • Python Statistics for Data Science (Grade A) • Generative AI Industry Applications • ELL Tutoring Certification • Student Government Participation Certificate

INTERESTS

- Artificial Intelligence • Machine Learning • Computer Science • Educational Technology • Web Development • Data Science
